A written report shall be made by the principal or designee within 24 hours. Such report shall, if known, contain the name and address of the child suspected of being abused or neglected, the person responsible for the child's welfare, the specific information indicating neglect/abuse or the nature and extent of the child's injuries (including any evidence of previous injuries), the identity of the person or persons suspected of being responsible for such neglect or abuse, and any other information that might be helpful in establishing neglect or abuse or that may be required by the Department of Health and Human Services.

The Board recommends all school district employees receive routine training or information on how to identify child abuse and neglect and the process for reporting.
