

Hello Families,

My name is Lyn Bill and I will be the new Chef/Food services Director for Mason Elementary School.

I was born and raised in Massachusetts and have lived in Brookline, New Hampshire for the past 28 years. I have two children, a daughter age 23 and a son age 20. I've worked in School Nutrition for the past 14 years in the Hollis Brookline School District as head cook as well as several years as the Food Service Director.

When students eat nutritious meals, students are better prepared for learning with more focus and energy. School lunches help students be healthy and successful. Additionally, school lunches are affordable and convenient for families. Research also shows that when students eat a healthy school breakfast, academic performance, attendance, and behavior all improves. All students deserve the chance to start their day with the fuel they need to do well in school.

During COVID schools were able to offer free school meals, however this option has expired. Families are encouraged to apply for free or reduced meals and may do so at any time during the school year.

I look forward to preparing nutritious and appealing meals to your children.

Thank you,

Chef Lyn
